

INTRODUCING THE RAPID RETURNS PACK

The first automatable, variable-sized mail order package uniquely suited to soft goods shipping.

FEATURES AND BENEFITS

The Rapid Returns Pack is not only customer-friendly, but also extremely cost-efficient. Our new CH Series Rapid Returns Automated Packaging Solution can output up to 15 variable-sized packages per minute, ready for shipping, with minimal supervision.

TENSION PACKAGING

Automated Order Fulfillment Solutions
www.tensionpackaging.com

Each individually sized package is created as the product passes through the CH sealing head, sealing the top and bottom sides via pull-roll tires. The front and back sides are heat-sealed, creating a secure and durable mail order package.

- Easy opening via perfed strip
- Quick and easy removal of product from package — No sticking

- Simple conversion to a return package:

- ▶ Use Peel-N-Stick strip to re-seal package
- ▶ Attach included pre-addressed return label
- ▶ Apply postage and mail

- Made from earth-friendly, recyclable poly
- Up to 15 packages per minute processed and ready to ship
